AZORES RETREAT.....September  
2020 [www.celestiallighthealers.com](http://www.celestiallighthealers.com)  
September 15th to 22nd

Rosemary is taking a group of Light workers to the Azores. A very important strategically placed volcanic Archipelago of islands in the Atlantic Ocean, off Portugal, on the Mid-Atlantean Ridge. The three ever mutating tectonic plates, the North American, Eurasian and African tectonic plates run from Iceland in the North Atlantic all the way to South Atlantic. This mid-ocean ridge is part of the longest submerged mountain range in the world. There is a strong belief that these islands were a part of Atlantis.

This is one of 12 very important places on the planet which are connected to the main Sacred Site, The Great Pyramid, Giza, Egypt which is the timepiece for this cycle. Our group will be helping to re-activate this crystalline volcanic important site with our sounds/voices, crystals and the crystal bowls, for this special time in our evolution. This is powerful service work for the people who are called to join us on this spiritual adventure.

Please contact Rosemary for availability and for booking a place  
[rosemary@celestiallighthealers.com](mailto:rosemary@celestiallighthealers.com)  
Limited places available.
